

ACS (Advanced Carrying System) - Breathing Apparatus

Wormald, leading distributor of Scott® & Sabre® Self Contained Breathing Apparatus (SCBA) products, is introducing a new Advanced Carrying System (ACS).

Developed following extensive research, the new ACS is set to become the industry standard carrier for SCBA in the marine, industrial and fire environments.

Scott's ACS represents a major advancement in SCBA carrying systems. It is significantly lighter than any other carrying system and offers the wearer ultimate in comfort and flexibility, combined with the highest standards of performance.

REDUCED USER BURDEN

- > At the heart of the ACS set is a simple and reliable two-stage pneumatic system.
- > ACS is the lightest carrying system in its class. It is significantly lighter than competitor products; increasing comfort, ease of movement and reducing wearer fatigue.
- > ACS features a sculptured, soft, back plate, which has been developed following research with osteopaths, fabric and industrial technologists to provide greater comfort and flexibility of movement.
- > The ACS range is the only carrying system in the world to feature this new ThermoFlex™ technology.

Protecting People & Property

WORMALD

ACS BREATHING APPARATUS

LOWER THROUGH LIFE COSTS

- > Corrosion resistant Nickel plated components.
- > Flame retardant webbing and cylinder band.
- > All components are user serviceable, low cost and easy to maintain.

EASY DECONTAMINATION

- > Both the back plate and harness can be washed with your turnout gear.
- > The new material used is approved to maintain its flame retardant qualities for 50 washes at 90°C.
- > A washing bag can be included to protect help the harness and washing machine.

WIDE RANGE OF SPECIFICATIONS

- > From compliance sets, to fully adjustable professional sets.
- > Class I and Class II approvals.
- > Available in a range of materials with unpadded or padded harnesses.

HIGH PERFORMANCE PNEUMATICS

- > High performance, reliable pneumatics with compact first breath activated demand valve with bypass.
- > No tools are necessary to remove the pneumatics, simply rotate the pneumatics 90 degrees mounting.

WIDE CHOICE OF FACE MASKS AND CYLINDERS

- > Wide choice of facemasks including Vision 3 and Promask PP ranges.
- > The ACS is approved with a wide range of cylinders and valve styles.

Wormald strives to be at the forefront of development, designing products in anticipation of new standards. Similarly, Scott's product development philosophy ensures that products are designed with the future in mind – allowing them to effortlessly conform to international standards.

Specifications:

Facemasks:	Vision 3, Promask PP. These are all available in a variety of sizes.
Weight:	Without mask and cylinder - 2kg - 3.25kg
Cylinders:	200 bar and 300 bar cylinders, 3 litre to 9 litre. Both composite and steel. Single and Duo.
Optional:	Hard Carrying Case
Contents:	<ul style="list-style-type: none">> Harness - flame retardant, washable harness, with fully adjustable shoulder and waste belts> Pneumatics system> User manual

Cylinder connection:	Standard EN outlet type in accordance with EN144-2.
Airline Connection:	CEN type couplings as standard.
Approvals:	EN 137:2006 Class I /Class II Australian Standard AS/ NZS1716:2003 Marine Equipment Directive (Shipwheel approval)
Service:	The ACS range is fully serviceable by a qualified person with no need to return to manufacturer.
Warranty:	For details please see user manual. Scott provide a wide range of warranties.
